

Terms of use

EMAS Conferences are accessible to certified healthcare professionals, associated press, industry representatives and other stakeholders in the field of promoting health in woman and men in midlife and beyond.

Certain industry symposia and exhibition pages contain information only intended for prescribing healthcare professionals. Non-prescribers should not read, share or download the clearly marked prescriber information.

Further note that prescribing information may vary depending on local approval in each country.

All best compliance efforts have been taken by EMAS and conference sponsors in accordance with the EMAS, Medtech Europe, FPMA and IPCSS Guidelines and Regulations.

If you have any questions, please review your local prescribing information and/or directly consult the local affiliate of the relevant Organization/Company.

** A prescriber is a medical professional who is authorized to write prescriptions for medication. If in doubt, you are not a prescriber.*

By agreeing to the terms of use, you gain full use of virtual conference functions and agree to being tracked for non-nominative analytics used by EMAS and EMAS Conference Organizers. Non-nominative tracking data may include profession, organization, department, city, country, etc.

On certain sections of this site your nominative data (e.g. your name and/or your Email address) could be shown to others (e.g. in the chat or in the Email field to ePoster authors for ex.) and by using certain features you agree to such.

At certain points you may be prompted to share your nominative and contact (e.g. email) information with third parties.
